User Stories : dat255-bearded-octo-lama

		Narrative					Acceptance Criteria		
#	Story Name	As a/an (Given)	I Want to… (When)	So that… (Then)	Priority	Scenario 1	Scenario 2	Scenario 3	Scenario 4 …
0001	Alarm setting	User	Set the alarm time.	When the time that is set arrives, the alarm rings and notifies the user of the time.	Critical	No prerequisites required. User chooses the time for the alarm. The alarm will sound once on the time set. If alarm is set at 17:00 and the clock is 17:05 the alarm will sound at 17:00 the next day. The alarm icon is displayed in the notification bar (by default)	User can set the alarm using an interval instead of a specific time. The user chooses the interval option, and sets the alarm to sound in x amount of time. The app calculates the alarm time and the rest is the same as for Scenario 1		
0002	Alarm modification	User	Change the alarm time.	the alarm is shifted a selected amount.	High				
0003	Sound customization	User	Set a custom alarm sound	The alarm sound, the selected sound sounds.	Medium				
0004	Snooze	User	Snooze the alarm while the alarm sounds.	The alarm is shifted a (changeable) preset amount (10 min approx)	Medium				
0005	Dismiss alarm	User	Cancel/dismiss the alarm at my leisure.	the alarm is stopped/removed.	High				
0006
